

Tertiary Infotech Academy Pte Ltd

UEN: 201200696W

LESSON PLAN

For

Certified Lean Six Sigma Yellow Belt (CLSSYB)

Course Code: C524

Conducted by

Tertiary Infotech Academy Pte Ltd

UEN: 201200696W

Version 1

DOCUMENT VERSION CONTROL RECORD

Version Number	Effective Date of Release	Summary of Included Changes	Author
1	1 June 2026	Initial release — CLSSYB 2-day lesson plan aligned to the 10 hands-on labs.	Dr. Alfred Ang
2	15 June 2026	Refreshed labs against the CSSC Yellow Belt reference.	Dr. Alfred Ang
3	1 July 2026	Aligned the schedule with the Contoso Service Desk case-study assessment.	Dr. Alfred Ang
4	23 September 2026	Major content expansion: course restructured to follow the DMAIC roadmap end to end; Lean Six Sigma concepts imported from the reference trainer deck and the CSSC body of knowledge and explained visually; 4 elective labs added (Affinity/Kano, VSM/Takt, Solution Matrix/Benchmarking/FMEA, Descriptive Statistics/Implementation Plan) and Lab 4 (PDCA charter) reclassified as elective, giving 9 core and 5 elective labs; interactive problem-solving tools (5 Whys, Fishbone, collaborative Pareto, NovaSPC) integrated into the Analyze labs; slide references added to the schedule.	Dr. Alfred Ang
5	23 September 2026	Integrated the SIPOC & Process Map Builder (alfredang.github.io/sipoc/) into Lab 3 and elective Lab 12, with a tool walkthrough added to the Define phase and the online toolkit slide updated to list all five tools.	Dr. Alfred Ang
6	23 September 2026	Fixed clipped headings: slide titles now auto-fit to a single line so long lab titles	Dr. Alfred Ang

		can no longer overprint the LAB/ELECTIVE chips beneath them.	
7	20 July 2026	Table of contents restored to a live, updatable Word field (previously flattened to static text), so it refreshes on open or F9 while still rendering correctly in the distributed PDF.	Dr. Alfred Ang
9	23 September 2026	Labs reissued as ACTIVITY PACKS in the Tertiary Infotech house format: one folder per activity named "NN - Title", each holding a Facilitator Guide, a Learner Worksheet and a Checklist (DOCX + PDF) alongside its own mock data (data/*.csv) and blank worksheets (templates/*.csv). The previous labs/ Markdown layout is superseded and archived.	Dr. Alfred Ang

Course Information

Course Title	Certified Lean Six Sigma Yellow Belt (CLSSYB)
Course Reference	C524
Training Provider	Tertiary Infotech Academy Pte Ltd (UEN 201200696W)
Duration	2 days · 7.5 instructional hours per day (15 hours)
Daily Timing	9:30 am – 5:30 pm (30-minute lunch break)
Mode	Instructor-led, hands-on Lean Six Sigma activities using the Contoso Service Desk improvement scenario
Trainer	Dr. Alfred Ang

Learning Outcomes

On completion of this course, learners will be able to:

- LO1: Define a project and establish the scope of work using Six Sigma's Define, Measure and Analyse phases.
- LO2: Apply Lean and Six Sigma concepts — value, waste, defects and variation — to a work process.
- LO3: Map a process using SIPOC, process maps and value stream maps to expose handoffs and waste.
- LO4: Collect and analyse process data using check sheets, Pareto charts, run charts and basic metrics.
- LO5: Identify root causes using 5 Whys, Fishbone analysis and evidence-based prioritisation.
- LO6: Recommend improvement and control actions to sustain gains, and continue your Lean Six Sigma development.

Training Resources and Activity Data

Each activity is a self-contained folder under activities/ — activities/NN - <Name>/ — holding the Facilitator Guide, the Learner Worksheet and the Checklist (each as DOCX and PDF), the mock data the learners analyse (data/*.csv) and the blank worksheets they complete (templates/*.csv).

- Shared data set: two weeks of Contoso Service Desk activity — 400 tickets, 96 defective, 120 defects, 6 opportunities per ticket.
- Baseline performance: yield 76%, DPU 0.30, DPMO 50,000, sigma level ~3.1; mean assignment time 55 min (median 46) against a 30-minute goal.
- Trainer note: the Activity 7 worked answers are in activities/07 - Pareto*/solution/ — do not release before learners attempt them.

- Learners need a spreadsheet application (Excel, Google Sheets or LibreOffice Calc) and a browser.

Course Schedule

Day 1 — Six Sigma foundations, Define phase and process mapping

Time	Duration	Topic / Activity
9:30–10:00	30 min	Welcome, course introduction, ground rules and course overview
10:00–11:15	75 min	FOUNDATIONS — What is Quality; What is Lean; What is Six Sigma; Lean vs Six Sigma vs Lean Six Sigma; sigma levels and DPMO; $Y = f(X)$; belt roles; the DMAIC roadmap; DMAIC vs PDCA [slides 16–47]
11:15–12:15	60 min	Hands-on: Activity 1: Yellow Belt Role, Certification Paths, and Improvement Scenario
12:15–12:45	30 min	Lunch break
12:45–14:15	90 min	DMAIC · DEFINE — Voice of the Customer; VOC to CTQ translation; the project charter; problem and goal statements; scope; SIPOC; process mapping levels and symbols [slides 48–111]
14:15–17:00	165 min	Hands-on (core): Activity 2: Lean, Six Sigma, Waste, Voice of Customer, and Value; Activity 3: SIPOC, Process Mapping, Handoffs, and SME Support; Activity 5: DMAIC Overview, Problem Statement, Scope, and Stakeholders. Elective (time permitting): Activity 4: Elective — PDCA Small Improvement Project Charter; Activity 11: Elective — Affinity Diagram and Kano

		Analysis
17:00–17:30	30 min	Day 1 recap and Q&A

Total instructional time: 450 minutes (7.5 hours) — excludes the 30-minute lunch break.

Day 2 — Measure, Analyse, Improve and Control

Time	Duration	Topic / Activity
9:30–9:50	20 min	Day 1 recap and Day 2 overview
9:50–11:50	120 min	DMAIC · MEASURE — the eight wastes (DOWNTIME); value-added analysis; types of data; data collection plans and operational definitions; check sheets; sampling; yield, DPU, DPO, DPMO; sigma level; COPQ [slides 112–149]
11:50–12:20	30 min	Lunch break
12:20–14:10	110 min	Hands-on (core): Activity 6: Data Collection, KPIs, Check Sheets, and Basic Metrics. Elective (time permitting): Activity 12: Elective — Value Stream Map and Takt Time
14:10–15:20	70 min	DMAIC · ANALYZE — common vs special cause variation; Pareto principle and charts; run charts and pattern rules; 5 Whys; Fishbone (5M); brainstorming and multi-voting; the interactive problem-solving toolkit [slides 150–193]
15:20–16:30	70 min	Hands-on (core): Activity 7: Pareto, Run Charts, Variation, Yield, DPU, and DPMO; Activity 8: Root Cause Analysis with 5 Whys, Fishbone, and Evidence using the collaborative Pareto, 5 Whys, Fishbone and NovaSPC tools
16:30–16:50	20 min	DMAIC · IMPROVE — solution generation and selection; 5S; poka-yoke; standard work; Kaizen;

		piloting [slides 194–227]. Hands-on (core): Activity 9: Countermeasures, 5S, Mistake Proofing, Standard Work, and Kaizen. Elective: Activity 13: Elective — Solution Selection Matrix, Benchmarking, and FMEA
16:50–17:10	20 min	DMAIC · CONTROL — control plans; process control; visual management; SOPs; team huddles; Gemba; A3 and handover [slides 228–259]. Hands-on (core): Activity 10: Control Plan, A3 Summary, Handover, and Certification Readiness. Elective: Activity 14: Elective — Descriptive Statistics and Implementation Planning
17:10–17:30	20 min	Course recap, key takeaways and next steps

Total instructional time: 450 minutes (7.5 hours) — excludes the 30-minute lunch break.

Activity Reference (aligned to the DMAIC phases)

DMAIC phase / Topic	Weighting	Labs
FOUNDATIONS: Six Sigma Foundations	15%	Activity 1
DEFINE: Define — Scope the Problem	25%	Activity 2, Activity 3, Activity 4 (elective), Activity 5, Activity 11 (elective)
MEASURE: Measure — Quantify Performance	25%	Activity 6, Activity 12 (elective)
ANALYZE: Analyze — Find the Root Cause	20%	Activity 7, Activity 8
IMPROVE: Improve — Fix the Cause	10%	Activity 9, Activity 13 (elective)
CONTROL: Control — Hold the Gain	5%	Activity 10, Activity 14 (elective)
